Industrial Visit to Schneider Electric India Pvt. Ltd.

The students of I Semester MBA were taken to Schneider Electric India Pvt. Ltd (SEIPL) on 29th and 30th January 2020. On reaching the plant, the students were briefed by Mr. Raj, Productions Head, introduced the students to SEIPL, following which, a safety video was shown to them explaining the precautions that need to be taken when moving around in the factory and the do's and don't's to be followed.

The students were divided in batches of two and they were taken around by the plant by Mr. Shyam Sundar Pandey and Mr. Adarsh who explained to the students the various products produced at the plant, which include capacitors, panels, power meters, etc. A few of these products are produced with the concept of make-to-order. After the tour, the HR Officer, Mr. Prakash briefed the students about the plant and the history of Schneider as well as the plant. It was a great learning experience for the students.
