

INDUSTRIAL VISIT REPORT

Industrial Visit to Anscer Robotics

Date of Visit: 06/08/2026

Batch: MBA II Semester, Batch: 2025-2027

Students observed the production and live deployment of Autonomous Mobile Robots (AMRs) designed for material handling across automotive, e-commerce, and FMCG sectors. The visit highlighted the end-to-end product lifecycle, including hardware assembly, sensor integration (LiDAR and computer vision), and rigorous quality control testing.
