The summary of words spoken by Swami Parama Sukhanandji Maharaj is as follows. Students have to inculcate those habits and behaviour in them that will enable them to become responsible citizens and more importantly good parents for the future generation. Different types of management methods are taught in an organization but managing life is the actual challenge faced by students.

Behaviour of a person decides his future. If a person takes actions irrationally without reflecting upon it he may even end in the prisons. Management of life is what differentiates a person holding high positions in the society and those who live in mental asylums and prisons.

The session concluded with the vote of thanks delivered by Prof. Venkatesh, Assistant Professor MCom Department, SIMS.
