Guest Lecture on Organ Donation

A seminar on organ donation was conducted by Dr. G. Venkatasubramanian, Director of Rangalakshmi Netralaya as a part of Rotary club activity along with Rotarian Ms. Rashmi Tunksali and Ms. Tamari Selvi at the college. The seminar was conducted in order to create an awareness among students and to bring out the importance of organ donation. The seminar started off with a discussion based on how much are the students aware about organ donation and also gave the statistics of organ donation and eye donation across the globe. We were also brought to notice that how an organ donation permission can be taken from the second level of relation i.e. friends and relatives and not directly approaching the family of the deceased. The importance of “Eye Donation” were also spoken of and stated how can an individual’s eye help the vision for 4 people, with the use of improved technology. The procedure of how can an individual bring to the notice about organ donation or eye donation was also told to the students. We were also told about body donation i.e. how can a body be used for the purpose of education; various medical institutions are in requirement of the same so that it can be used for the purpose of their practical studies. The seminar came to an end where the students were asked to create an awareness about organ donation so that everyone will get to know the importance of organ donation.
